

Dear Ed & the City Wide Roofing Crew,

05.09.2013

Back in October 2012, Hurricane Sandy did a number on my roof. It was a horrific experience!

I contacted City Wide Roofing and Ed immediately came to assess the damage.

Even with a brace on his leg he carefully went up to the roof! Now THAT'S dedication! My roof was done by City Wide Roofing in the past. Upon Ed assessing the damages he suggested I contact my homeowner's insurance ASAP. I did just that and although the insurance company were taking their time in sending a check, Ed made it a point to get our roof repaired so that we don't suffer any more water damages! Ed's care, dedication, prompt response, and understanding of the situation on hand was enough to know that City Wide Roofing isn't just a roofing company, it isn't just a name, it involves compassionate people who are going to make sure a task is done to the customer's satisfaction! My mother has

*May this express
my sincere appreciation
for your thoughtfulness.*

gotten her roof done by City Wide and soon my mother-in-law will. I will continue to refer City Wide to everyone! The workers that arrived were prompt and courteous. Thumbs up to you!

Thank You!
Sincerely,
Yenise Rivera
